Foster Parents needed!

Got a little extra love to go around?

Do you have the love and the time to help shelter animals grow up in a nurturing environment? Adams County Animal Shelter and Adoption Center needs foster parents for kittens and puppies during the spring, summer, and fall months. We provide the babies, training, and starter care kits; you provide the home and the love. Kittens and puppies that grow up in a home environment are much happier, healthier, and more adoptable than those that grow up at the shelter. If you'd like to help the animals and give back to your community, please call or e-mail for an application, fill it out, and mail it back to the shelter. If you have additional questions, please contact the shelter at the number or e-mail listed above. Thank you so much for your help!
